## PROJECTS

---

**Project Title: Amazon-Style eCommerce Platform.** ([View Live Site: Amazoonaustralia.com](https://amazoonaustralia.com))

- Developed a multi-landing page eCommerce platform featuring three distinct pages inspired by Amazon's design, using Laravel, Voyager, and MySQL.
- Centralized homepage with selectable, responsive landing pages for targeted user experiences.
- Enabled efficient content management and streamlined user interactions.

**Project Title: Utility Tools Website.**

- Developed a multi-functional website offering tools such as an AI content generator, QR Code maker, PDF to Word converter, and more.
- Built using the Laravel framework and Bootstrap for responsive design.
- Implemented back-end functionalities with PHP and Python libraries, supported by a MySQL database.

**Project Title: Café/Bakery Showcase Website.** ([View Live Site: Textbook.nyc](https://textbook.nyc))

- Developed a responsive website for a client, optimized exclusively for Apple screens.
- Utilized Laravel for robust back-end, Bootstrap for design responsiveness, and JavaScript for interactive elements.
- Integrated accessibility tools to enhance user experience.

## EXTRA-CURRICULAR ACTIVITIES

---

- Exploring the latest in tech trends and tools.

- Reading fictional books and graphic novels.
- Watching TV series and seasons.
